The new CEEEOACH®

Easy group communication for connecting trainer and student in equestrian sports.

With the new CEEEOACH® 2-6 participants can communicate over a distance of up to 500 meters (1600 ft) without a smartphone or mobile phone network using modern Bluetooth® technology.

The communication system that networks even without a network - handy, lightweight, sturdy and intuitive to operate.

All functions can be controlled with just three buttons. The wave-shaped design of the CEEEOACH® enables optimum operation, even when wearing gloves or without looking at the device. Three individual configurations can be set up easily (Moderator, Participant and Private Mode).

"I had been looking for a system that enables direct, uncomplicated dialogue between the instructor and students for a long time."

Terhi Stegars

National team Finland,
ranking leader dressage (Finland)

Partner in Outdoor Sports

More reliable than standard radio systems

Crystal clear sound

Simultaneous talking with Full-Duplex
