PROFESSIONAL PERFORMANCE IN CAR & TRUCK CLEANING PRODUCTS

WWW.NERTA.EU

Nerta Car & Truck cleaning products

Nerta vouches for quality products in the Car & Truck cleaning sector for more than 40 years now. This long experience makes our products a reference in the market.

Our R&D-department works on the development of new products and the continuous optimization of our existing products. We initially start from the requests of our customers and the specific demands within the sector. The products are thoroughly tested in practice during the final stage of the development. Our sales team is ready to adjust the products on the customer's installation to obtain an optimal result. We distinguish 6 important applications within the Car & Truck range, each with its own colour and symbol.

THE MARKET.”*

Productlines

The Nerta products are divided in 4 different product lines, which makes it easier for the customer to choose from our large product range.

classic *line*

Real classics – still strong and unequalled.

The Classic line consists of the classics in the Nerta range. These trendsetters were the basis of the Nerta success and are one by one references in the market. The Classics are the building stones of the Nerta foundations.

Premium *line*

High effectiveness and an excellent result.

The Premium line includes products which are developed on the basis of the most efficient raw materials. Additives give a surplus value to the wash technical qualities of these products. Premium products guarantee an optimal result.

DIAMOND *line*

Innovative and progressive – the perfection.

The Diamond line opens a new dimension in washing chemistry. The development of these innovative products are based on our long experience, product knowledge and the most recent innovations on the market of raw materials.

The Diamond line uses nano-technology: micro-fine parts which penetrate deeper in the pores of the coachwork during cleaning. Other nano-molecules will stick to the car lacquer during the conservation phase. They will give a surface as smooth as glass which makes it more difficult for the dirt to attach. Every Diamond product also has a pleasant perfume.

eco *line*

Created with respect for the environment, people and the world.

The Eco line consists of powerful products which are developed with respect for nature. Our chemists have selected the raw material of the Eco-range based on durability and biodegradability. We only work with raw material of vegetable origin, completed with pure minerals.

classic line

“ REAL CLASSICS
STILL STRONG AND
UNEQUALLED.”

NERTA NOX

NERTA NOX is an acid detergent, based on sulphuric acid. It is a fast and effective remover of all kinds of dirt including brake dust.

NERTA TC 2000

NERTA TC 2000 is an alkaline and highly concentrated prewash agent with a multifunctional application in truck cleaning.

NERTA TC 2010

NERTA TC 2010 is a weak alkaline, highly concentrated prewash agent to clean all types of vehicles. Mild for soft metals and delicate lacquers. Can be used with fogging systems, spray arches, high pressure cleaners and foam systems.

NERTA TC 2020

NERTA TC 2020 is a weak alkaline prewash agent to clean all types of vehicles. Mild for soft metals and delicate lacquers. Can be used with fogging systems, spray arches, high pressure cleaners and foam systems.

NERTA ANTI-INSECT

NERTA ANTI-INSECT is a unique, light alkaline detergent to remove dead insects from cars.

NERTA FOAM CLEANER 2010

NERTA FOAM CLEANER 2010 is a weak alkaline, concentrated and strongly foaming prewash agent to clean all types of vehicles. Mild for soft metals and delicate lacquers. Can be used with fogging systems, spray arches, high pressure cleaners and foam systems.

NERTA POWDER ECO 20

NERTA POWDER ECO 20 is an alkaline, low-phosphate ecological powder to clean all types of vehicles with high pressure cleaners in selfcarwashes. Quick and total solubility. Excellent cleaning power. Contains 20% of phosphates.

NERTA POWDER ECO 20 P

NERTA POWDER ECO 20 P is an alkaline, perfumed, low-phosphate, ecological powder to clean all types of vehicles with high pressure cleaners in selfcarwashes. Quick and total solubility. Excellent cleaning power. Contains 20% of phosphates.

NERTA ACTIVE FOAM

NERTA ACTIVE FOAM is a neutral foaming shampoo to use in foam arches. Combined with compressed air and water, you will obtain a soft, creamy foam. Can also be used as shampoo on brush sprayers.

NERTA CARSHAMPOO 20%

NERTA CARSHAMPOO 20% is a classic, neutral, soft shampoo for use in brush sprayers of carwash machines and for manual cleaning.

NERTA CARSHAMPOO BLUE SPECIAL

NERTA CARSHAMPOO BLUE SPECIAL is a strong concentrated, neutral soft shampoo for use in brush sprayers in carwash machines. Its special composition reduces lime and iron deposit which results in a better cleaning. Keeps machines and brushes clean. Lightly perfumed.

NERTA BUS WASH SHAMPOO

NERTA BUS WASH SHAMPOO is a weak alkaline, well moisturizing shampoo with an exceptional cleaning power for busses, trains, metro and all other vehicles with a lot of glass. Contains complexing agents (calcium and iron) and shining components to give a protective layer to the coachwork. It is not recommended to use wax during the last rinse. Can be used both for manual cleaning as in brush sprayers of automatic brush wash installations.

NERTA CARWAX BR30

NERTA CARWAX BR30 is a classic wax. Gives a drying, preservative and glowing effect to the coachwork.

NERTA HOTWAX

NERTA HOTWAX is a wax to use with high temperatures (40 to 60°C). Gives a drying, preservative and glowing effect to the coachwork.

NERTA BRILLIANT POLISH FINISH

NERTA BRILLIANT POLISH FINISH is a concentrated drying, gloss and preservation wax. Gives a quick drying effect, long-lasting preservation and high gloss to the coachwork. Contains high-gloss additives.

NERTA ANTI-COPOLYMEER

NERTA ANTI-COPOLYMEER is a cleaning agent to remove co-polymer waxes on new cars. Contains corrosion inhibitors to protect soft metals.

NERTA ANTI-PARAFFINE

NERTA ANTI-PARAFFINE is a cold degreaser based on aliphatic hydrocarbon and surfactants, to remove paraffine on new cars.

NERTA MOTOR CLEANER

NERTA MOTOR CLEANER is a powerful, strong alkaline cleaning agent, based on potassium hydroxide to degrease motors and all other parts which are covered with grease and dirt. Especially recommended for use in high pressure cleaners and spray appliances.

NERTA CLAIR

NERTA CLAIR is an all-round cleaner for all washable surfaces like floors, bathroom, kitchen, workplace and car (interior cleaner). Easily removes dirt, grease deposit, nicotine, etc.

NERTA INTERIOR CLEANER

NERTA INTERIOR CLEANER is used as power cleaner for car interiors. Easily removes dirt, grease deposit, dust, nicotine. Works antistatic which keeps the interior longer clean.

NERTA GLASNET AM24

NERTA GLASNET AM24 is a concentrated glass cleaner. Cleans, degreases and gives a high gloss effect. Cleans without leaving any stripes. Contains ammonia.

NERTA SCREENWASH summer edition

NERTA SCREENWASH summer edition is a ready-to-use windscreen washer liquid for use during summer. Removes atmospheric dirt, insects and greasy deposits of the car window in a fast and efficient way. Has a strong degreasing action and a pleasant scent. Does not attack laquer and rubber.

NERTA SCREENWASH winter edition

NERTA SCREENWASH winter edition is an anti-frost windscreen washer liquid. Prevents freezing, removes light icing and cleans the car window without leaving any stripes. Protects the spray system against corrosion and lime deposit. Available in different concentrations (-20°C, -70°C).

NERTA ANTI-FOAM

NERTA ANTI-FOAM is used to suppress the creation of foam in aqueous environments. This powerful agent decomposes the foam and is used successfully in water treatment systems. Is a milky dispersion of a solid organic matter in a hydrocarbon solution. The product is not listed as a dangerous product and can be used in biological systems.

NERTA AQUA-NET

NERTA AQUA-NET is a product, based on hydrogen peroxide, which suppresses or prevents unpleasant smells in water recuperation systems. Is odourless and harmless to use in car washes. Cannot be used in biological purification systems.

NERTA PH-PLUS

NERTA PH-PLUS is a pH-regulator which regulates the acidity of aqueous systems. Contains sodium hydroxide 29%. Is mostly used with water treatment in the car wash sector. The use of flock agents decreases the pH of the water and disturbs the action of the flock agent. By adding NERTA PH-PLUS, the pH will become neutral again.

NERTA WATERSOFT

NERTA WATERSOFT is a highly concentrated water softener, which prevents lime deposit in your high pressure cleaner and pipes. Because of its high concentration, you only need very low quantities.

NERTA WATERFLOCK

NERTA WATERFLOCK is a liquid and very active product, based on polyaluminium. Is mainly used to purify drinking-, pool and waste water. The flock agent will make sure that floating dirt and dust particles will settle at the bottom. Small parts flock together and can be filtered more easily. NERTA WATERFLOCK makes the water more resistant against algae. Also removes phosphates and gives a strong reduction of the BOD and COD-values.

NERTA SALT TABLETS

NERTA SALT TABLETS is a quality salt to regenerate ion exchanging resins in domestic and industrial water softeners of all brands. Round tablets. High purity. Complies with the European standard EN973 type A.

NERTA NOX PLUS

NERTA NOX PLUS is a concentrated acid detergent, based on sulphuric acid. It is a fast and effective remover of all kinds of dirt including brake dust.

NERTA ATC 100

NERTA ATC 100 is a powerful acid detergent, based on hydrogen fluoride acid and sulphuric acid with a large range of applications such as car, truck and bulk cleaning, rim cleaning, outside cleaning, cleaning and renewal of aluminium, etc. Removes rust, deposit of scale or iron.

NERTA ATC 200

NERTA ATC 200 is an acid detergent, based on ammoniumbifluoride and phosphoric acid with a large range of applications such as car, truck and bulk cleaning, rim cleaning, outside cleaning, cleaning and renewal of aluminium, etc. Removes rust, deposit of scale or iron.

NERTA ATC 300

NERTA ATC 300 is a powerful acid detergent, based on hydrochloric acid and hydrogen fluoride acid with a large range of applications such as car, truck and bulk cleaning, rim cleaning, outside cleaning, cleaning and renewal of aluminium, etc. Removes rust, deposit of scale or iron.

NERTA HIGH FOAM CLEANER

NERTA HIGH FOAM CLEANER is an alkaline, concentrated, foaming prewash agent to clean all types of vehicles. Can be used with fogging systems, spray arches, high pressure cleaners and foam systems. Removes insects. Freshly perfumed. Gives stable foam.

NERTA CARNET JUMBO

NERTA CARNET JUMBO is an exceptionnaly soft prewash agent with special soaking power to clean all types of vehicles. Removes without problems the so called static dirt. Easy to rinse. Gives a water-repellent and shining coachwork because of its special composition. Can be used with fogging systems, spray arches, high pressure cleaners and foam systems.

NERTA POWDER SPECIAL

NERTA POWDER SPECIAL is a light alkaline carwash powder to clean all types of vehicles. Quick and total solubility. Contains 50% of phosphates.

NERTA WHEELSHINE SUPER

NERTA WHEELSHINE SUPER is a concentrated alkaline rim cleaner, based on sodium hydroxide and sugar surfactants. Removes brake dust and other dirt in a fast and effective way.

NERTA SKY WE64

NERTA SKY WE64 is a light alkaline, nano-molecular and strongly concentrated prewash agent to clean all types of cars. Fills up the micropores of the coach work. Contains molecules which put a shining, dirt-repellent film on the lacquer. Easy to rinse. Removes insects. Freshly perfumed.

NERTA DRIZZLE PROTECT

NERTA DRIZZLE PROTECT is an exceptionnaly soft prewash agent with special soaking power to clean all types of vehicles. Removes without problems the so called static dirt. Easy to rinse. Contains high-quality components which protect the lacquer and give a water-repellent and sparkling effect. Guaranteed colour intensity. Protects your vehicle against winter influences.

NERTA SNOWFOAM

NERTA SNOWFOAM is a concentrated, light acid, nano-molecular active foam to use in foam arches. Combined with compressed air, you will obtain a creamy, snow effect. Neutralizes the alkaline prewash which results in a better drying result. Long-lasting protection. Dirt-repellent. Contains complexing agents calcium and iron. Strong and fresh perfume.

NERTA LIGHTNING SHAMPOO

NERTA LIGHTNING SHAMPOO is a neutral, nano-molecular foam shampoo. Contains molecules which stick to the coach-work during rinsing and leave a deep glow. Long-lasting protection. Dirt-repellent. Recommended for cars with mat lacquers. Makes the next washing easier. Pleasant and strong perfume. Dazzling result.

NERTA STORM POLISH

NERTA STORMPOLISH is a highly concentrated foampolish with triple action and a pleasant perfume. Is used in installations which rub in the product. Has a cleaning and conserving function. The result of the hardwax is a well protected, high-gloss coachwork.

NERTA RAINDRYER

NERTA RAINDRYER is a concentrated, nano-molecular gloss dryer. Quickly removes the water film and pearly lustre on glass, should be added to the final rinse water. A rain of hydrophobic agents brings the small water drops together to macro-drops which can be blown away more easily by the drying appliances. The 'soft touch'-film which is formed, is resistant to harmful weather conditions like ultraviolet radiation and acid rain, even after multiple washings.

NERTA THUNDERWAX

NERTA THUNDERWAX is a superconcentrated drying, gloss and preservation wax, based on high-quality polymers, nanotechnology and paint protection. Gives the coachwork a deep and shining gloss, a durable paint protection and a strong water-repellent effect. Combined with NERTA RAINDRYER, the car will dry as quick as lightning. The 'soft touch'-film which is formed, is resistant to harmful weather conditions like ultraviolet radiation and acid rain, even after multiple washings. Contains pleasant coconut extracts.

NERTA TAR REMOVER

NERTA TAR REMOVER quickly removes tar and asphalt from car lacquers and synthetic fibre. Also suitable to remove grease, resin, remainders from glue, oil, etc.

NERTA LEATHER TOTAL

NERTA LEATHER TOTAL is a 3-in-1 product: cleans, beautifies, nourishes and protects the leather. Can be used for the leather interior of your car but also for briefcases, suitcases, sofas, chairs, etc. Based on lanoline and avocado-oil. It prevents drying by the sun and lets the leather breathe. Leaves a thin protective layer which makes it easier to remove the dirt. Not to be used on buckskin or suede.

NERTA TYRE & BUMPER GLOSS

NERTA TYRE & BUMPER GLOSS is a concentrated maintenance and care product for tyres and bumpers. Gives a new look and exceptional gloss to matt tyres and bumpers. Is exceptionally weatherproof. Can also be used to treat vinyl in car interiors or to treat cold, cleaned motors. Contains solvents and is not soluble in water.

The logo for 'eco line' is displayed against a green background with a geometric, low-poly pattern. The word 'eco' is in a white, lowercase, sans-serif font. The second 'o' is replaced by a white circle containing a stylized green leaf icon. A thin white horizontal line extends from the right side of the 'o' circle, underlining the word 'eco'. The word 'line' is written in a white, lowercase, cursive script font, positioned to the right of the horizontal line.
