

Adored, Awake & Asleep

by Johan Ullén (2010)

Violin

Percussion:*)

Crotales (2 octaves)

Vibraphone (played with glockenspiel mallets and contrabass bow)

Tubular bells

Xylophone (or Marimba**)

Two woodblocks, high and low

Castanet, mounted

Whip

Wood chimes

4 wine glasses filled with water,

well tuned in A5, G5, F5 and Bb4 (played with wet fingers)

Glass chimes

Piano***)

*) The percussion instruments should be placed in groups as shown. The piece consists of three parts, using first metal, then wooden, then glass instruments.

**) Xylophone is the preferred instrument. In the absence of a xylophone, a marimba may be used.

***) The piano lid must be fully opened.

Please, *always* respect the Sostenuato Pedal markings - regardless of acoustics.

The first section must be bathing in pedal, in the second, there must be NO PEDAL what so ever and in the third section, the pedal is held down continuously until the very end.

The pianist is, in the third part, required to mute the strings inside the piano with the left hand, near the soundboard. These notes are marked +

The pianist is also, in the third part, required to whistle. The best effect is obtained by whistling softly into the piano, to get acoustic support from the soundboard.

Adored, Awake & Asleep
