We are a municipal pre-school which is part of the Norrtälje southern pre-school area. Our mottos are:

Our beautiful pre-school is the newest in the municipality and was finished in the Autumn of 2015. We have places for 120 children and the pre-school is approximately four kilometres from the centre of Norrtälje in a rural environment with the forest, lake and Frötuna school nearby.

The pre-school's curriculum and municipal steering documents are the foundation for our work and we strive for diversity when it comes to pedagogical ideas as well as methods. We want to stimulate the development of children by utilising their curiosity and their wish to explore. Respect and engagement are mottos in the meeting between our fellow human beings, children and grown-ups. We strive to at least have one preschool teacher working in every department and together with the pre-school's child minders, we make use of each other's competences in order to give the children security, care and a learning and developing time within the pre-school.

The food served at the pre-school is cooked at Länna school and is delivered to our reception kitchen. It follows the Swedish National Food Agency's (swe: *livsmedelsverket*) recommendations (*Good food in the pre-school 2010* (swe: (*Bra mat i förskolan 2010*))) which among other things mean that we minimize the sugar intake.

The opening hours of the pre-school are Monday to Friday 06.30 – 18.30.
