General Information

Introduction

The birth of the Swedish Proteomics Society in late 2002 was a natural consequence of the high interest for protein expression profiling linked to a strong position in biomedical, biotech, and biology area that combines genomics, protein chemistry and molecular biology. The SPS symposium is held annually.

Postersession

The program includes a poster session, to which all delegates may apply. A number of posters will also be selected for oral presentation in the Student speaker session. The five best posters (selected by the organizing committee) will be awarded free registration at the 3rd EuPA Congress in 2009, www.eupa2009.org.

Delegates are encouraged to submit their **poster abstract before October 1**.

Exhibition

For information about the exhibition, please contact project manager Erik Ahlzen, Erik.Ahlzen@lakemedelsakademin.se
