Jönköping 2017-08-17

Oil wells Leigh-Ann and Hamilton is in production

After more than a year of delays the oil wells Leigh-Ann and Hamilton is finally in production.

Big Rock Energy AB invested in these oil wells in the beginning of 2016. The company has thus taken advantage of the increase of the oil price as well as increased production from the wells Leigh-Ann and Hamilton.

Big Rock Energy AB intends during the end of 2017 or the beginning of 2018 to sell a part of, or the full share of the company's part in Young County. The company also evaluates investment opportunities in several high-yield projects with a current oil prices of approximately US \$ 50.

CEO Carl-Adam Andersson's comment:

"It is gratifying that these two oil wells are finally in production. The company will receive its first revenue from the investment. The company also intend to sell all or part of this project to invest in new projects to make the company grow. "

Big Rock Energy AB is a progressive energy company that is constantly seeking new projects, both nationally and internationally.
