

THE VERSATILE EXOS-130

SMALLER, LIGHTER, CHEAPER AND MORE ERGONOMIC

All our experience from twenty years of manufacturing pin bone removers has been utilized to develop the new 130-series of ergonomic and cost-effective hand machines.

SAME QUALITY IN A SMALLER PACKAGE

By asking our customers what they considered the most important issues for hand-held pin-boners, we defined a brand new family of machines packed with many new features:

- | | |
|------------------|-------------------------------------|
| Smaller handle | ➤ Much appreciated by women |
| Lighter | ➤ Weight is reduced by 35% |
| Easy cleaning | ➤ No tools needed for disassembly |
| Attractive price | ➤ Almost 35% cheaper than Exos-221 |
| Hygienic | ➤ Smooth design with no pockets |
| Ergonomic handle | ➤ Makes for warm and cosy operation |

A VERSION FOR EVERY NEED

Flexible and hygienic, covering all processing situations, Exos offers the 130 model in four different versions:

- Exos-130R – for right-hand use.
- Exos-130RW – for right-hand use. Built-in cleaning device for rinsing the wheel and bone guide.
- Exos-130L – for left-hand use.
- Exos-130LW – for left-hand use. Built-in cleaning device for rinsing the wheel and bone guide.

IMPROVEMENTS IN EVERY DETAIL

When we started this cost-reduction development project, we decided not to compromise on the quality of the two most important components; the wheel and the bone guide. While still being 100% compatible with the Exos-200 series, we have improved the 130-series design so that it is even more user-friendly by adding a convenient grip on the wheel.

Exos-130 machines also feature the same robust water valve used on the Exos-220E. All vital spare parts are the same for all Exos' pin-boners, making them easy to service and maintain.

EXOS-130 SPECIFICATIONS

Weight, handle	500 gr
Effect	25 W
Voltage	100-240 V AC
Frequency	50-60 Hz
Motor, brushless	24 V DC
Fixed speed	150 rpm
Control box dimensions	190 x 130 x 52 mm
Cable length, handle to control box	2 m
Cable length, control box to outlet	1,5 m open end

EXOS-130 WORKS ON THESE SPECIES:

- Char
- Chinook
- Coho
- Gear Silver Smelt
- Haddock
- Hake
- Herring
- Mackerel
- Perch
- Pike Perch
