

Vasa International School of Stockholm Mission Statement

Our vision

Vasa International School of Stockholm is a small, family-like, multicultural IB World school that strives to foster a challenging, open-minded and inclusive environment for its students. We aim to be caring and inspiring teachers, ambitious and principled students, and informed and engaged parents.

Our mission

Our mission is to stimulate curiosity through inquiry and encourage respectful relationships between all stakeholders. We constantly seek to empower students to express themselves individually and collaboratively, preparing them for the challenges of the future and encouraging them to become lifelong learners and active global citizens.

Our philosophy

At Vasa International School of Stockholm we value and develop the international profile of all our stakeholders. As an IB World school, we are committed to the IB vision for the creation of a collaborative, diverse community united by a mission to make the world a better place through meaningful education. At our school we promote the learning of different languages and the understanding of different cultures. Our students, their families and our staff are multicultural, multilingual and as a community we embrace and promote all those different identities and cultures.

By aiming to instil the IB values into the hearts of all stakeholders we encourage our students, teachers and parents to strive to become inquirers, knowledgeable, thinkers, communicators, principled, open-minded, caring, courageous, balanced and reflective.

As a school, we promote collaboration and effective teamwork at all levels and we inspire each other to ask questions and learn through meaningful inquiry. We set challenging goals and develop the perseverance to achieve them.

We also value reflection as a means to deepen our understanding and to improve teaching and learning. As an IB school, we further value the importance of taking action as a means of connecting our learning to real-life situations and as a means to improve ourselves and the world around us.
