

## Jonas Lindberg & The Other Side - Pathfinder (ModeMusic 2016)

This September sees the arrival of 'Pathfinder' – the first full-length album from Swedish prog rock project Jonas Lindberg & The Other Side.

'Pathfinder', a follow-up to the 2013 EP 'The Other Side', offers some of the band's heaviest music to date and is musically more rock-driven than the group's sophomore effort.

"We were aiming for a dirtier sound", says bandleader and bass player Jonas Lindberg.

"We wanted something heavy with less of the west coast-leanings from the previous record".

'Pathfinder', released through Jonas Lindberg's own record label ModeMusic, consists of eight new tracks. The material is produced by Lindberg and draws inspiration from progressive rock-bands such as The Flower Kings and Spock's Beard. Jonas Lindberg, founder and main composer of the group, has also cited Pink Floyd and Sting as important influences on the band's sound.

Jonas Lindberg & The Other Side started out as a solo project for Lindberg, but has since progressed into a core lineup of returning musicians. This time the five-piece band from 'The Other Side' is accompanied by Jenny Sandgren on lead and backing vocals, Nicklas Thelin on guitars and percussionist Maria Olsson.

"The whole process of making this album has been very exciting", says Jonas Lindberg.

"It's fun to produce a record on which each of our current members gets a chance to blossom".

'Pathfinder' comes out on September 1st and can be purchased from the band's website and bandcamp page. The record will also be made available for digital download on services like iTunes, Spotify and bandcamp.
