Beds, sheets and cleaning: There are blankets and cushions for everyone in the house. You bring your own sheets and towels, or you can rent these for a charge of 100kr/set. It is prohibited to use sleeping-bags in our cottages. Cottage-guests are cleaning the house before their departure. You have the option to order a final cleanup from us, for a charge of 1.600kr. If no cleaning is carried out we charge you for the double cleaning-fee.

Important: We want to offer a calm and relaxing stay to all our guests. We also show great respect for all those who live at Ödevata permanently, and we strive to be good neighbours. It is therefore not allowed to play high music. Everyone should be able to sleep peacefully at 11pm without being disturbed. You are allowed to bring your pets for a fee, and we request you kindly to announce your pet when booking. Smoking is prohibited indoors. You leave a damage deposit to us at your arrival, and if something breaks or wears out more than normal our guests see to replace the object's actual value.

Fishing rules: You must follow the local fishing rules. We inform you about the details in written form and are at your disposal if you have further questions.

Our farm and the surrounding nature: Ödevata FiskeCamp is a property in the middle of the wilderness. We are careful with this unique environment so that all our guests can enjoy this place in the future. Our farm-animals love some company, but please go easy on them. Your dogs are welcome everywhere when put on a leash.

Please use the available outdoor-grills for BBQ. Think of safety first, by placing a water-bucket close to the fire and avoid liquid accelerants. You can even use your own grill on the cottage's premises or on the appropriate BBQ-spots. Open fire is only allowed in appropriate places that we will show you. We encourage our guests to treat nature with respect and common sense when using the right of public access in Sweden. "Don't disturb, don't destroy" is the main rule in the wilds and apply to plants, animals, bodies of water, mountains, but also private estates, gardens, houses etc.

You're welcome to pick mushrooms and berries in the woods. You can also take a swim or a boat if you please. After all, this is why so many want to visit our fine region. However, we only allow quiet electric driven boats and request our guests to follow the fishing rules. These can vary from lake to lake and we give you all the information you need.

For your safety: It is mandatory to always use life-vests if you boat on the lake - even for those who are able to swim. Our reception provides life-jackets and sailing-vests in all sizes. We even encourage non-swimmers to wear one of these when fishing from shore.

Have a nice holiday in Ödevata!
