

Shoes Approved by World Athletics - as at 11 December 2020

1. This list is primarily a list concerning new shoes that athletes propose to wear in international competitions which have been assessed by World Athletics to date.
2. The assessment and whether a shoe is approved or not is determined by several different factors as set out in Technical Rule 5.13 and the Shoe Sole Thickness Table to Rule 5.13.3.
3. This table has been presented to align with the Shoe Sole Thickness Table, and note that some athletes may choose to wear shoes manufactured for a specific event in other events.
4. The list is not a complete list of every shoe that has ever been worn by an athlete. If a shoe is not on the list, it can be because a manufacturer has failed to submit the shoe, it has not been approved or is an old model / shoe. Any shoe worn before 1 January 2016 is deemed to meet the technical requirements of Rule 5 of the Technical Rules and does not need to be approved unless requested, this deemed approval does not prejudice any rights of World Athletics or Referees to request a shoe be handed over for further examination or any other rights set out in the Rules and Regulations.
5. An old model / shoe is required to comply with Rule 5.13 and, as with any other rule, an athlete must comply with it. Athletes may be asked to complete a declaration concerning their old model / shoe prior to an event and, after the athlete has competed, the old shoe may be taken in by the Referee for further investigation by World Athletics.
