

IMP TRAINING PLACEMENT OFFER

PARTNER

lek
a Sandoz company

Name

Lek, a Sandoz company

Description

Lek is a part of Sandoz, a global generics leader. We save and improve lives by developing, producing and distributing high-quality, affordable pharmaceuticals. Thanks to our global network, Sandoz medicines are now available to 90% of people worldwide. In addition to the direct cost savings to patients, we contribute to the stability of health-care systems worldwide and free up resources for new and innovative medicines. We make far more than just traditional off-patent medicines. We stand out from the crowd thanks to our ability to develop and produce a wide range of differentiated products, ranging from complex delivery systems for standard generics through to modern biopharmaceutical medicines (biosimilars).
