

Name of the player:

Authorisation to publish and transfer personal data, photos & videos

Background

The organisation of tournaments and matches requires a number of personal data. This data is collected by the clubs and transferred to the Belgian Floorball Federation (BFF). Furthermore, the board of FC Kraainem Tigers would like to publish photos and videos of players on the website of the Club, Facebook and Twitter for publicity purposes.

In accordance with the Belgian law of 8 December 1992 on the protection of privacy (the Privacy law):

1. The person in the photo/video must have given his or her consent (and/or their legal representative).
2. The person must be informed of who is responsible for processing the data
3. The person must be informed of the purposes of the processing.
4. The person must be informed of the existence of the right to access and the right to modify the personal data concerning him or her.

The Board therefore asks each player, and/or, when applicable, their legal representative, to sign this document and indicate if they authorise the Board to transfer personal data to BFF and to publish data, photos and videos of them/their children on websites and social media. The Board will take due care to ensure that only such material is published that fully respects the integrity of the person concerned.

The authorisation (tick the box if you consent):

1. Collection of personal data and transfer of data to BFF for publication on BFF website	I consent
This is the regular procedure necessary to get license and insurance. Data concerned: Full name, sex, nationality, date & place of birth of the player and his/her position on the field.	<input checked="" type="checkbox"/>
2. Personal data for publicity purposes	
This is very important for the publicity for the club and sharing of news on social media. It concerns in particular photo & video material (individual, team) taken at matches and first names, published on websites and social media). We do NOT publish full names or contact information. Without a signed authorisation, we will consider this as the Board is not authorised to publish any data of the player concerned.	<input type="checkbox"/>

Signature(s)

To be completed and signed when the player is 18 years of age and older:

I agree that data and/or photos are processed and published according to the specification above. The authorisation applies until I request (in writing) the Board to terminate it.

Date:

Signature of the player:

To be completed and signed when the player is younger than 18 years of age:

I agree that data and/or photos of me/my child are processed and published according to the specification above. The authorisation applies until the player or the legal representative requests (in writing) the Board to terminate it.
