Dial 112

All houses and apartments are privately owned by local families. It is therefore important to take good care of the house and inform the owner if anything is broken or not working as it should.

The house will be cleaned once a week with changing of towels and bed-linen. The owner will enter the house in the middle of the stay to make sure you have everything you need.

Please do not change the settings on the TV if it is not working. Please ask the owners and they will help you with the right channels.

IMPORTANT! Due to the extreme cold it is not allowed to leave windows or doors open. The floor heating system and the water filled radiators may freeze and cause huge damages.

We have good and clean water I Arjeplog so you can drink the water from the tap. Enjoy!

Parties or events are not allowed in the houses.

It is not allowed to charge electric cars at the house as long as the owner not informs you otherwise.

All houses are **NO SMOKING**.

Please leave the house in a good condition when you leave.

Thank you and we hope you will have a pleasant stay!

IMPORTANT!

Due to the corona situation:

All guests needs to report to the house rental office or directly to the owners if anyone in the house have symptoms or is sick. During this time no one will enter the house to avoid the spread of corona virus.

Thank you for your understanding.
