

Thursday 9th June 2016

Tivoli Congress Center, Arni Magnussons Gade 2, 1577 Copenhagen V.

If you love the craft of software testing, are passionate about evolving your profession and want to take part in the test community, then join us at the conference.

Keynotes of the day:

Peter Lange, Watson Advisor, IBM

“Cognitive Computing. Not science fiction, but a journey”

Declan O’Riordan, Security Testing Manager, Testing IT

“Application Security Testing – A New Approach”

The conference features 4 presentation tracks and a sponsor Expo.

The presentations cover topics such as agile methods, quality management, test design techniques, how to increase the return on investment of testing and QA on a company level and much more.

The Expo features some of the accredited ISTQB® training providers in Denmark and providers of testing services and training. See the companies below.

Student price
450 Dkr.
