*My*Time Manual

Congratulation to your purchase of *My*Time, a high quality sound 6 language talking clock. *My*Time can announce the actual time and the weekday in a digital or in an analogue version (Except for German).

Languages: German, Spanish, English, Italian, French and Dutch.

How to set language:

1. Press and *hold* 🔓 key and then press and *hold* the DAY/LANGUAGE key for 7 seconds and *My*Time will start announcing in English. Keep holding the 🔓 key and select between the 6 languages step by step with the DAY/LANGUGE key.
2. Lock your selected language by releasing your hold of the 🔓 and then press the Talking key at the front of *My*Time.

How to set hour, minute and weekday:

1. Press and *hold* the 🔓 key and then press the HOUR key to set the correct hour. Keep holding the 🔓 key and then press the MINUTE key to set the correct minute. Keep holding the 🔓 key and then press the DAY/LANGUAGE to set the correct weekday.
2. Lock your settings by *releasing* your hold of the 🔓 key and then press the Talking key at the front of *My*Time.

**Digital time reporting = "14.10 "**
Analogue time reporting = "10 minutes past 2 in the afternoon"

How to switch between the two versions of time announcement:

In all languages, except for German, you can choose *My*Time to announce the time either in an analogue or in a digital version. To switch between the two versions and which is there in each 24 hour cycle, simply pass 00.00 when setting the HOUR, and *My*Time automatically switches between analogue or digital time announcement.
